**FULL BAG SALES WORKSHEET**

**FULL BAG AMOUNTS:** Full bags are sold at the per thousand rate. Bag volumes vary by species and stock type, other volumes may be available. To speed the line, note the volume you want of each item. The attendant will provide you with tickets to give cashier. After payment please drive your car or truck to the loading dock on the west end of the building. Give your receipt and tickets to the forklift operator on loading dock. We will load your seedlings.

If you want us to hold seedling in our cooler please print your name and phone number on tag and leave with cashier. **Seedlings should be planted within 1 month, but we can store until April 15.** When ready to pick up please call for pick up time. You will need to have your receipt at the time of pickup.

**LIMITED QUANTITIES:** Demand for seedlings has been great. The extremely rainy weather has prevented us from lifting all stock at this time. The stock we are selling has been set aside specifically for this advertised sale. These sales are designed for customers not meeting our order minimum. For fairness we may place limits on sales quantities until all customers have received some seedlings. Any seedling remaining after the sale will be available Monday through Friday, 8:30 a.m. to 4:00 p.m. in full bag or box amounts only. Please call the nursery before coming to purchase to assure we have the stock available.

Species	Stock Type	Price per seedling	Bag Count	Price per bag	Desired Quantity	*
